The ReAwaken Tour The Traveling Martyr Engine

Glyph Function

Exposes the ReAwaken America Tour as a militarized pilgrimage of grievance, fusing evangelical revivalism with QAnon semantics and authoritarian propaganda. It is not a campaign it is a mobile sacrament of narrative possession.

- > It sells salvation as a product.
- > It launders criminality as martyrdom.
- > It fractures civic truth with divine absolution.

Node Target

- Michael Flynn (Tour headliner, prophet-martyr)
- Clay Clark (tour organizer and narrative architect)
- Eric Trump, Roger Stone, Mike Lindell
- QAnon influencers, Dominionist pastors
- Key cities: Tulsa, Anaheim, Batavia, San Diego, Miami

Scar Trigger

- > Gods army must rise.
- > This is not politicsits a spiritual war.
- > Jesus is our President.

These are semantic weapons meant to override civic reality with a replacement theology of righteous rebellion.
